CIGIE Report Identifies Top Challenges Facing Federal Agencies

The Council of the Inspectors General on Integrity and Efficiency (CIGIE) has issued a summary of the top challenges facing Federal agencies, as identified by those agencies' respective Offices of Inspector General (OIGs).

The report, [*Top Management and Performance Challenges Facing Multiple Federal Agencies*](#), was compiled by a group of employees from various Federal OIGs. The report identifies and describes the following top challenges:

- Information Technology Security and Management
- Human Capital Management
- Performance Management and Accountability
- Financial Management
- Procurement Management
- Grants Management
- Homeland Security, Pandemic Recovery, Disaster Preparedness, and Climate Change

Each year, Federal OIGs identify and report on the top management and performance challenges facing their respective agencies, pursuant to the *Reports Consolidation Act of 2000*. This consolidated report represents the third time CIGIE has issued a summary report of these challenges, to assist Federal managers and policymakers in addressing these challenges and to make the work of Federal OIGs more accessible to the public.

The report is available at [Oversight.gov](https://www.oversight.gov), a publicly accessible, searchable website containing the latest public reports from Federal OIGs who are members of CIGIE.
